

EDUCATION		
•	Motilal Nehru National Institute of Technology	Allahabad
	<i>Bachelor of Technology in Electronics and Communication Engineering;</i>	<i>2023 - 2027</i>
•	D.A.V. Public School	Jamshedpur
	<i>Senior Secondary (CBSE); Percentage: 88.2%</i>	<i>2022-2023</i>
•	D.A.V. Public School	Jamshedpur
	<i>Secondary (CBSE); Percentage: 90%</i>	<i>2020-2021</i>

EXPERIENCE		
•	Tectonic Agents	Bengaluru (Remote)
	<i>AI Engineering Intern</i>	<i>October 2026 - Present</i>
	◦ Developed an LLM-powered RAG chat agent in Python and FastAPI, using tool calling over structured engineering data	
	◦ Implemented a hallucination-guard layer tracing every number and citation to sources, with 100+ automated pytest tests	
	◦ Built REST and SSE streaming APIs and a JavaScript chat interface with caching, BM25 search, and source citation viewers	
•	FreeFlow Advisors	Noida
	<i>Software Engineering Intern – Data & AI</i>	<i>March 2026 - May 2026</i>
	◦ Engineered concurrent web-scraping & OCR pipelines to aggregate data from 250K+ Indian educational institutions	
	◦ Built entity-resolution pipeline via LLM extraction, embeddings, classification to normalize data across heterogeneous sources	
	◦ Developed semantic search & recommendation system via vector search & embeddings for personalized institutional discovery	

PROJECTS		
•	StockLabs Real-time Stock Market Tracker with AI Insights	GitHub Live Demo
	<i>React.js, Express.js, MongoDB, WebSockets, Upstox API, YFinance API, REST APIs</i>	
	◦ Built a Node.js pub/sub WebSocket engine using Sets to stream targeted market data, cutting latency 40% and re-renders	
	◦ Developed a scalable Node.js backend for financial API aggregation, Upstox OAuth, REST API integration, & data scraping	
	◦ Integrated AI backend services for automated portfolio analysis, stock recommendations, market insights, and an AI chatbot	
	◦ Aggregated real-time financial news via RSS feeds, using an in-memory Node cache to efficiently minimize API latency	
•	Clinico Healthcare Appointment Management Platform	GitHub Live Demo
	<i>Node.js, Express.js, MongoDB, React.js, JWT, Stripe, Razorpay, Cloudinary, Mongoose</i>	
	◦ Built and optimized RESTful APIs using Express.js and MongoDB for authentication, booking, and payment processing	
	◦ Built JWT-based RBAC middleware to enforce secure permission boundaries across doctor, patient, and admin endpoints	
	◦ Optimized appointment search using indexed MongoDB queries, reducing overall database lookup latency by 50%	
	◦ Integrated Stripe and Razorpay payment gateways with backend verification, transaction validation, and failure handling	
•	MahabharatGPT Persona-Grounded RAG Chatbot	GitHub Live Demo
	<i>Python, Flask, LangChain, Groq, Pinecone, Hugging Face Embeddings, Docker, NLP</i>	
	◦ Built an end-to-end RAG pipeline using LangChain, grounding LLM responses against a corpus of 27 source books	
	◦ Engineered an ingestion pipeline for chunking, embedding and vector indexing using MiniLM embeddings and Pinecone	
	◦ Designed semantic retrieval and ranking over a vector database, balancing retrieval precision with cross-character context	
	◦ Implemented grounded generation with source citations to improve traceability and reduce unsupported LLM responses	

SKILLS SUMMARY	
•	Languages: C++, C, JavaScript, Python
•	Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Complexity Analysis
•	Backend: Node.js, Express.js, REST APIs, JWT Authentication, WebSockets
•	AI / GenAI: LangChain, RAG Pipelines, LLM Integration, Vector Embeddings, Semantic Search, HuggingFace
•	Databases: MongoDB, MySQL, Pinecone (Vector DB)
•	Frontend: React.js, Tailwind CSS, HTML, CSS
•	Developer Tools: Git, GitHub, Postman, VS Code, Claude Code

ACHIEVEMENTS	
•	Secured 4th place out of 130+ competing teams as a Finalist in the Advitiya Hackathon organized by IIT Ropar
•	Selected as a Pre-finalist at Smart India Hackathon after placing among the top 3 teams in the institute-level internal round
•	Secured 3rd place among participating teams in the Web Development Hackathon conducted under Codesangam, MNNIT
•	Advanced to the Semi-finals, ranking among the top 20 out of 330 teams in the Development Hackathon at Jadavpur University
•	Achieved a global rank of 705 out of 31,000+ participants in a LeetCode Biweekly Contest, placing in the top 3% overall
•	Qualified for Round 2 of Flipkart Grid 7.0, placing in the top 10% out of 1.6 lakh+ participants nationwide

CODING PROFILES	
•	LeetCode: Reached Knight tier (1887 rating) with 850+ problems solved. Link
•	Codeforces: Specialist with a maximum rating of 1416 Link
